

We have an opportunity for an

OSTEOPATH OR PHYSIOTHERAPIST

Due to continued growth we need more therapists to help fix injuries and stop them from coming back. At Injury Shetland we offer physiotherapy, osteopathy, massage therapy and Pilates. We see a wide variety of patients so experience would be beneficial but not necessary.

With the clinic having built up a strong presence in the community, achieving an excellent reputation, we are looking for an individual with a caring nature to help maintain this high standard.

This correct person for this role will be able to:

Diagnose and fix injuries and be able to go the extra mile to stop them from coming back again.

Treat with compassion and empathy.

Enjoy working as part of a team.

Be keen to learn new skills and become a better therapist.

The position is initially on a salaried locum basis to cover maternity leave but could be made permanent for the right person.

If you would like to work in our friendly clinic or you want to find out more, please contact Bronwyn Smith on 692727 or email bronwyn.smith@injuryshetland.co.uk.
